Spatial Planning

All professors at Selçuk University were helpful. I was satisfied with all of the programmes, especially with trips. Dormitory life was different from the one in Poland. But without many problems.

English Language and Literature

Selçuk University is one of the best universities that I know. Not only for the big campus and all of the activities you can do there, but also for the Turkish people who work inside, because they are always willing to help you whatever you need.

I can recommend Selçuk University to all students. People are wonderful there. I couldn't say anything bad about Selçuk University, because I was really happy there and I am looking forward to come back.

Environmental Engineering

I have heard before that Konya is a conservative city, with a lot of cultural and historical places. I was very excited because I read something about Mevlana and I was also interested in Sufism before.

The orientation programme was good, I think it's a not good idea for the Erasmus students to live together in one dormitory.

Learning, going to Turkish weddings, the hospitality of the people, learning about religion, traveling İstanbul, İzmir, Kayseri...mostly with Turkish people.

Architecture

I think that all the time which I spend in Konya and Turkey was a great experience for me and I am sure that it will help me a lot in my future life. I met a lot of new people from other countries and I visited a lot of beautiful places.

I was satisfied with programmes for foreigner students especially I liked trips arranged for us.
